ABHISHEK SRIVASTAV

Frontend Developer

+91 9616882034 | abhisheksrivastavx@gmail.com | abhisheksrivastav.in | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Frontend Software Developer with **3+ years of experience** building scalable, responsive, and user-focused web applications using **React.js**, **TypeScript**, **JavaScript**, and **Redux Toolkit**. Experienced in developing production-ready applications across enterprise platforms, real-time systems, and Web3 products, with strong expertise in reusable component architecture, REST API integration, state management, responsive UI development, and frontend testing. Proven ability to translate complex business requirements into maintainable, high-performance user interfaces and collaborate effectively across product, design, and engineering teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS
Frontend: React.js, Next.js, React Native, Redux Toolkit, Context API, Tailwind CSS, Material UI, Bootstrap
API & Integration: REST APIs, GraphQL, Axios, WebSockets, JWT, Webhooks, AJAX, JSON
Testing: Jest, React Testing Library, Unit Testing, Integration Testing
Tools: Git, GitHub, Vite, Webpack, Babel, Postman, Jira, Figma
Deployment: Docker, CI/CD, Vercel, Netlify, Firebase

PROFESSIONAL EXPERIENCE

Vision Language Experts Pvt. Ltd. **Noida, UP, India**
Frontend Developer Sep 2025 – Present

- Architected and developed a multi-tenant enterprise web application using React.js, TypeScript, Redux Toolkit, Tailwind CSS, and Ant Design, supporting complex organizational workflows.
- Developed end-to-end maintenance management workflows including preventive, predictive, and reactive scheduling, calendar-based visualization, bulk operations, and automated PDF reporting.
- Designed a centralized **Axios API integration layer** with request/response interceptors, token refresh handling, and standardized error management for reliable frontend-backend communication.
- Implemented role-based access control (RBAC), protected routes, dynamic navigation, and permission-driven UI across multiple organizational user roles.
- Built reusable UI components and modular Redux state management patterns, promoting maintainable frontend architecture and efficient application rendering.
- Integrated WebSockets and event-driven updates to synchronize frontend state with backend changes in real time.
- Developed unit and integration test suites using **Jest** and **React Testing Library**, maintaining **85%+ code coverage** across critical application workflows.

Speqto Technologies Pvt. Ltd. **Noida, UP, India**
Associate Software Developer Sep 2023 – Jul 2025

- Developed responsive and cross-platform web and mobile applications using React.js, Next.js, Redux, and React Native, applying performance optimization techniques such as **code splitting**, **lazy loading**, and **bundle optimization**.
- Built feature-rich DeFi applications covering staking, token vesting, DAO governance, referral systems, and token burn-to-swap workflows.
- Integrated Web3 wallets including MetaMask and WalletConnect and implemented smart-contract interactions using Wagmi and ethers.js.
- Developed real-time application functionality using WebSockets and integrated frontend applications with backend APIs and blockchain services.
- Implemented mobile-first and responsive interfaces across multiple screen sizes, ensuring consistent usability and performance across devices.
- Collaborated with Product Managers, UX Designers, and Backend Engineers within Agile/Scrum development cycles to deliver production-ready features.

PROJECTS

Asset Management SaaS Platform (React.js · TypeScript · Redux Toolkit · Tailwind CSS · REST APIs)

- Architected and built an enterprise multi-tenant SaaS platform featuring real-time asset lifecycle tracking, predictive maintenance scheduling, automated reporting, and role-based access control.

MagnumMeta — DeFi Platform (React.js · Web3 · Wagmi · ethers.js · Redux · WebSocket)

- Engineered a decentralized finance platform integrating Web3 wallet connectivity, smart-contract interactions, and real-time data feeds for staking, token vesting, and DAO governance workflows.

EDUCATION

Master of Computer Applications (MCA) 2021 – 2023
Mahatma Jyotiba Phule Rohilkhand University Bareilly, UP, India
Bachelor of Computer Applications (BCA) 2016 – 2019
Mahatma Gandhi Kashi Vidyapith Varanasi, UP, India
